

Blockchain & Digital Assets

If you're passionate about cryptocurrency and digital assets, thrive on intellectually challenging work, and are comfortable working independently – our Blockchain & Digital Assets practice may be the perfect route for you!

IDEAL MAJORS

We're looking for students focused on Computer-Science, Accounting, Finance, or a related field. If you are involved in a local/national blockchain or digital asset meetup group or if you have some investment knowledge around wallets, private key management, consensus mechanisms, second layer solutions, or NFTs – you can take your learning to the next level with the Blockchain & Digital Assets Team.

We have an expert "core team" with experience working in the space since 2014 and a wider "industry group" of over 50 professionals. Our "core team" has subject matter expertise and has developed world-first services and products for some of the top companies in the crypto space. Our industry team allows us to service clients with audit, tax, consulting, risk assurance, and business management services.

Our Blockchain & Digital Assets team serves Crypto Exchanges, Custodians, Wallets, Investment Funds, Traders, Crypto Lenders, Wallet Providers, Minders & Stakers, ATM operators, NFT platforms and global Token Projects and DAOs. We serve top names in the space with traditional CPA services such as audit and tax; however, we also innovate world-first digital asset solutions (public and client-facing applications under the [TrustExplorer®](#) suite.)

We work with our clients on an array of service needs, including:

- **Financial Statement Audits for Digital Asset Companies**
- **Proof of Reserves Engagements**
- **Tax and Structuring Advice for Token Projects**
- **Real-Time Attest for Stablecoins, Asset-backed Tokens, and Exchange-Traded Products**
- **Services for DeFi Protocols**
- **Compliance for NFT Projects & Marketplaces**
- **And more!**

FUN FACT: TrustExplorer is the world's first real-time attest (audit) application. This is the future of public accounting, happening here and now. Armanino is recognized as a Global Leader in Digital Asset Solutions. Do you believe all assets will become digital assets? We do, and we are participating in the evolution of the internet from Web2 to Web3.

A photograph of a person's hands working at a desk. The person is wearing a dark suit jacket and is looking at a laptop screen. There are several papers and documents scattered on the desk, some with text and charts. The scene is lit with a warm, yellowish light, and the overall image has a greenish-yellow tint.

Blockchain & Digital Assets

BLOCKCHAIN INTERNS

- Hands on experience contributing to engagements for clients within the Digital Asset industry
- Expand your knowledge on traditional accounting and computer science skills
- Exposure managing TrustExplorer implementations from state to finished
- Analyze business operations, internal controls, revenues and expenses for digital asset companies
- Implement internal processes, controls and systems
- Help clients (securely) acquire, hold, transact, and account digital assets while maintaining conformity to the industry reporting standards

And yes, you will have the opportunity to contribute to blockchain-based assurance products and technology. You will get an opportunity to get an up-close view of TrustExplorer. If it's during an audit or tax season, you will help our crypto tax clients or test digital asset balances for an audit engagement.

Gain knowledge of the crypto and digital assets industry and how it impacts clients.

As a Blockchain Intern you will discover how Armanino is innovating Best & Only solutions for the future of Web3 and the future of public accounting at large.
