## BARRIERS

# What Is Lead to Cash and Why Should You Care?

- May also know it by CPQ, which stands for Configure, Price, Quote. It's a process and a product.
- 100% of all companies have a CPQ process
- Lead to Cash is mission-critical process to SaaS companies. With it they can:
  - Ensure accurate pricing and contract approvals
  - Store, make changes to, and renew contracts
  - Bill clients accurately
  - Comply with tax code and ASC 606

## MARKETING POV

## What Is Lead to Cash and Why Should You Care?

- Customer effort is the strongest driver of customer loyalty
- When a customer enters your space – they are 4X more likely to leave disloyal than when they entered
- Often the cause is internal friction and a lack of cohesion in the purchase process
- Disloyal customers impact the company negatively with poor reviews, negative referrals, and limited future purchases
- A smooth, seamless customer journey – from awareness to advocacy – with an aligned back and front office is essential
