EXPLORING NEW AREAS

Agenda

- Economic Outlook
- Working Capital Fundamentals
- Key Metrics and Practices
- Strategies for Improving Cashflow
- Forecasting to Measure Effectiveness
- Summary
- Q & A

Why is this a hot topic right now?

Economic Outlook and Uncertainty

10 Federal Fund rate increases in the past 16 months

Interest rates have increased from .25% in March 2022 to 5.25% in May 2023

This increases the cost of capital for companies and consumers

Conversely, higher interest rates encourage savings

As of June 2023, inflation is still trending above the Fed's target rate of 2%

Core - 4.80%

Food - 5.70%

Rent - 7.83%

Services – 5.7%

FOMC Meeting Date	Rate Change (bps)	Federal Funds Rate				
May 3, 2023	+25	5.00% to 5.25%				
March 22, 2023	+25	4.75% to 5.00%				
Feb 1, 2023	+25	4.50% to 4.75%				
Dec 14, 2022	+50	4.25% to 4.50%				
Nov 2, 2022	+75	3.75% to 4.00%				
Sept 21, 2022	+75	3.00% to 3.25%				
July 27, 2022	+75	2.25% to 2.50%				
June 16, 2022	+75	1.50% to 1.75%				
May 5, 2022	+50	0.75% to 1.00%				
March 17, 2022	+25	0.25% to 0.50%

Optimization of working capital is measured by the cash conversion cycle

Cash Conversion Cycle

Cash Conversion Cycle

Measures **Efficiency**: How quickly cash can be converted to sales and back to cash

- = Receivables Collection Period (DSO)
- + Inventory Conversion Period (DIO)
- Payables Deferral Period (DPO)

DSO or Days Sales Outstanding:

Measures how quickly cash is collected from sales.

Ending Accounts Receivable/ (Period Revenue/Days in Period)

DIO or Days Inventory Outstanding:

Measures how many days before inventory is sold.

Inventory/ (Cost of Goods Sold/Days in Period) Working Capital Dollars Invested/Committed:

DSO: Loans extended to the customer in terms of days

DIO: Cash invested to acquire inventory that does not generate cash until sold

Higher is Better

Lower is

Better

Lower is Better

> DPO or Days Payable Outstanding: Measures how long it takes to pay obligations

Ending Accounts Payable/ (Cost of Goods Sold/Days in Period)

Working Capital Dollars on Credit:

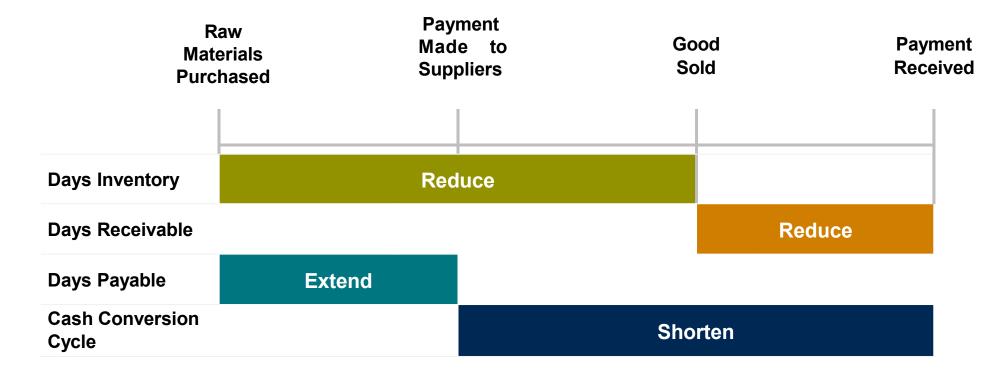

DPO: Days of credit from vendors

Manufacturing Industry Example

Working Capital & Cash Conversion

Will they receive the customer payment in enough time to fund the payment to the vendor?

Metrics that bring visibility into opportunities & how strategies are working

Payables Metric Examples

Financial Performance	Process Efficiency	Risk/Quality	Volume
Days Payable Outstanding (DPO)	End to End Cycle Time (Invoice Date to Supplier Funding Date)	% of Payments with 3 Way Match	Number of Disbursement Cycles
Weighted Average Payment Terms (WAPT)	Percentage of Invoices entered Automatically	First Time Right PO/Invoice	Number of exceptions to payment policies (invoice, disbursement cycle, terms)
Disbursement Cycle Adherence	Days between Invoice Date to Data Entry Date	Cash Forecast Accuracy	Number of invoices processed
Total Spend	Days between Key Date and AP date (or match date)		Number of supplier calls for AP
	% of Payments made by EFT/ACH		% Automation
	Term changes implemented on Time		
	Days between Payment Release Date and Due Date		

Metrics that bring visibility into opportunities & how strategies are working

Financial Performance	Process Efficiency	Risk/Quality	Volume
 Days Sales Outstanding (DSO) Weighted Average Cost of Capital (WACC) Bad Debt Reserve AR Aging Analysis 	End to End Cycle time – goods ownership xfer, service completion to customer invoice receipt Invoice Accuracy % Invoice delivery methods Customer Payment Methods Customer Payment Processes System to connect quoting to invoicing Price / Discount change frequency	 Credit and Rebill statistics: volume, reason code, trends Collections Strategy Cash Forecast Accuracy 	 Customer base Number of Invoices Number of Credits and Rebills Number of supplier calls for AP % Automation

Actionable Ideas

Strategies for Improving Working Capital

Receivables

- Identify any internal factors that slow customer payment
- Establish a credit and collection policy and strategy
- Consider offering early payment discounts

Inventory

- Use updated Sales
 Forecast to adjust
 Min/Max guidelines for
 RM and FG
- Adjust sales and production plans, liquidate excess and obsolete inventory

Payables

- Categorize and prioritize suppliers
- Explore virtual card programs
- Optimal disbursement schedule

Real-time reporting & near-term clarity

Forecasting Cash Flow

A tightly managed cash cycle improves financial planning, cash management, risk assessment, and stakeholder communication.

It helps you maintain liquidity, make informed decisions, optimize yield and navigate potential cash flow challenges effectively.

Why are we hitting our P&L budget What is today's cash balance? but are still seeing cash constraints? Who is due to be paid today, When will we need to seek funding? tomorrow and next week? What levers can we pull to mitigate Are our customers paying on time? cash burn? Is our **forecast** in line with **today's** Do we have the cash to hire new cash balance & 13-week forecast? employees? What does our cash runway look like Are we managing inventory under various scenarios? purchases & CapEx initiatives efficiently?

Automate your data stream to drive real-time insight.

Data Frequency & Digestibility

Real-time data is oftentimes messy.

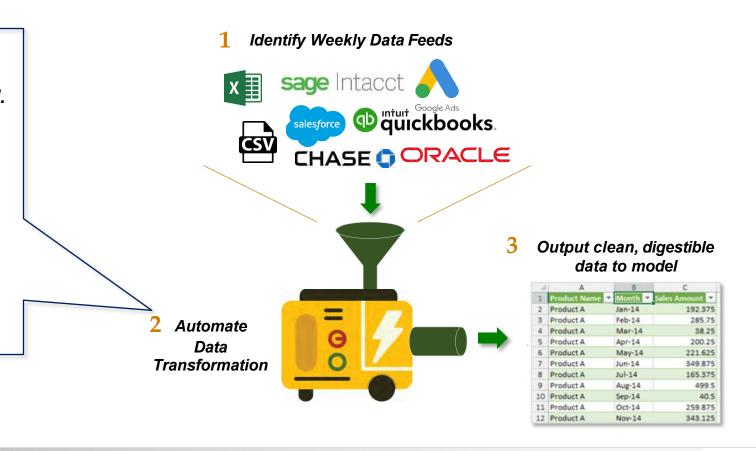

Automating data transformation is critical.

Consolidate disparate data sources

- Power Query (Excel)
- Power Automate (Microsoft)
- Third Party Software (Altryx)

Apply Custom Cash Flow Categorization

- Manual, line-by-line
- Utilize Artificial Intelligence to drive significant time savings

Drive action and monitor the effectiveness of your working capital initiatives

Rolling 13-Week Model

- Review cash position each week vs. prior expectations
- Forecast the next quarter by week in granular detail
- Group cash inflows & outflows into discrete,
 digestible categories that correspond to your working capital initiatives

Ensuring Forecast Accuracy

Sound upstream processes & diligent tracking

Frequent & Digestible Cash Transaction Data

Capture historical cash inflows & outflows
Arrive at today's ending balance with confidence

Connection to Sales Funnel

Quantify customer wins & losses and bridge to expected cash receipts

Accurate KPI's / Historical %'s

Sound understanding of core economics drives parallels between receipts & disbursements

Up-to-date AR & AP

Today's outstanding invoices are the best indicator of near-term cash

Consolidate & store each week's updated model to analyze & answer:

- ✓ What were last week's actuals vs. last week's updated forecast?
- ✓ What were the key areas that drive a miss vs. forecast from 8 weeks ago?
- ✓ How accurate has our AP forecast six weeks into the future, after known invoices are termed?

#8

Q&A

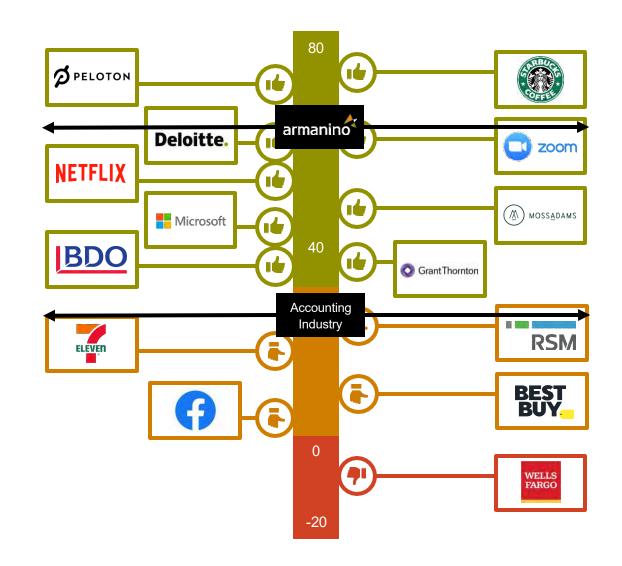

OUR CLIENTS' VIEW

We're Just What You Need

A Net Promoter® Score (NPS) is used by more than two-thirds of Fortune 1000 companies. **Armanino's NPS (68) is almost two times higher** than the accounting industry average (38), and it places the firm scores closest to household name brands such as Starbucks, Peloton and Zoom.

A New and Better Way for Today and Tomorrow

Equipping you with the insights and tools needed to redefine what's possible

COMPLIANCE & REGULATORY

- Tax Planning
- Trust & Estate
- SOX
- Contract

ASSURANCE & ADVISORY

STRATEGY & PLANNING

- Bookkeeping
- **Budgeting/Forecasting**
- Account Receivable
- Accounts Payable

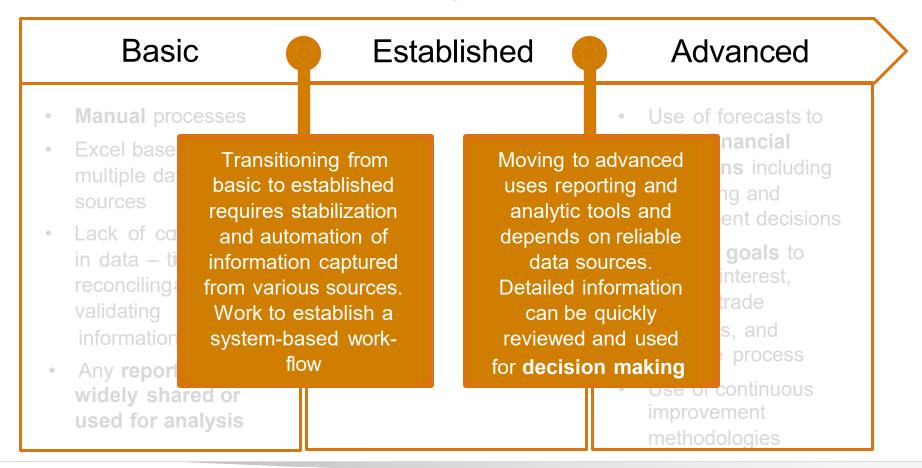

Delivering impactful, bold solutions that increase clarity and spark success for today and tomorrow.

Cash Conversion Maturity

Cash strategies should provide inputs into key decisions

Strategic Decisions

Set sales objectives with customers

Shift focus to alternative revenue streams

Re-negotiate terms with suppliers

Control CAPEX and discretionary spending

Reduce fixed expenses

Change operating plans

Other Considerations:

- Weighted Average Cost of Capital
- Industry standard terms
- Overall industry-specific trends
