Capture Value Sooner

Realize the productivity gains immediately, while gaining access to the next wave of UKG innovation.

Avoid Adoption Pressure

The New Experience becomes the default experience in the **November 2026 feature release**.

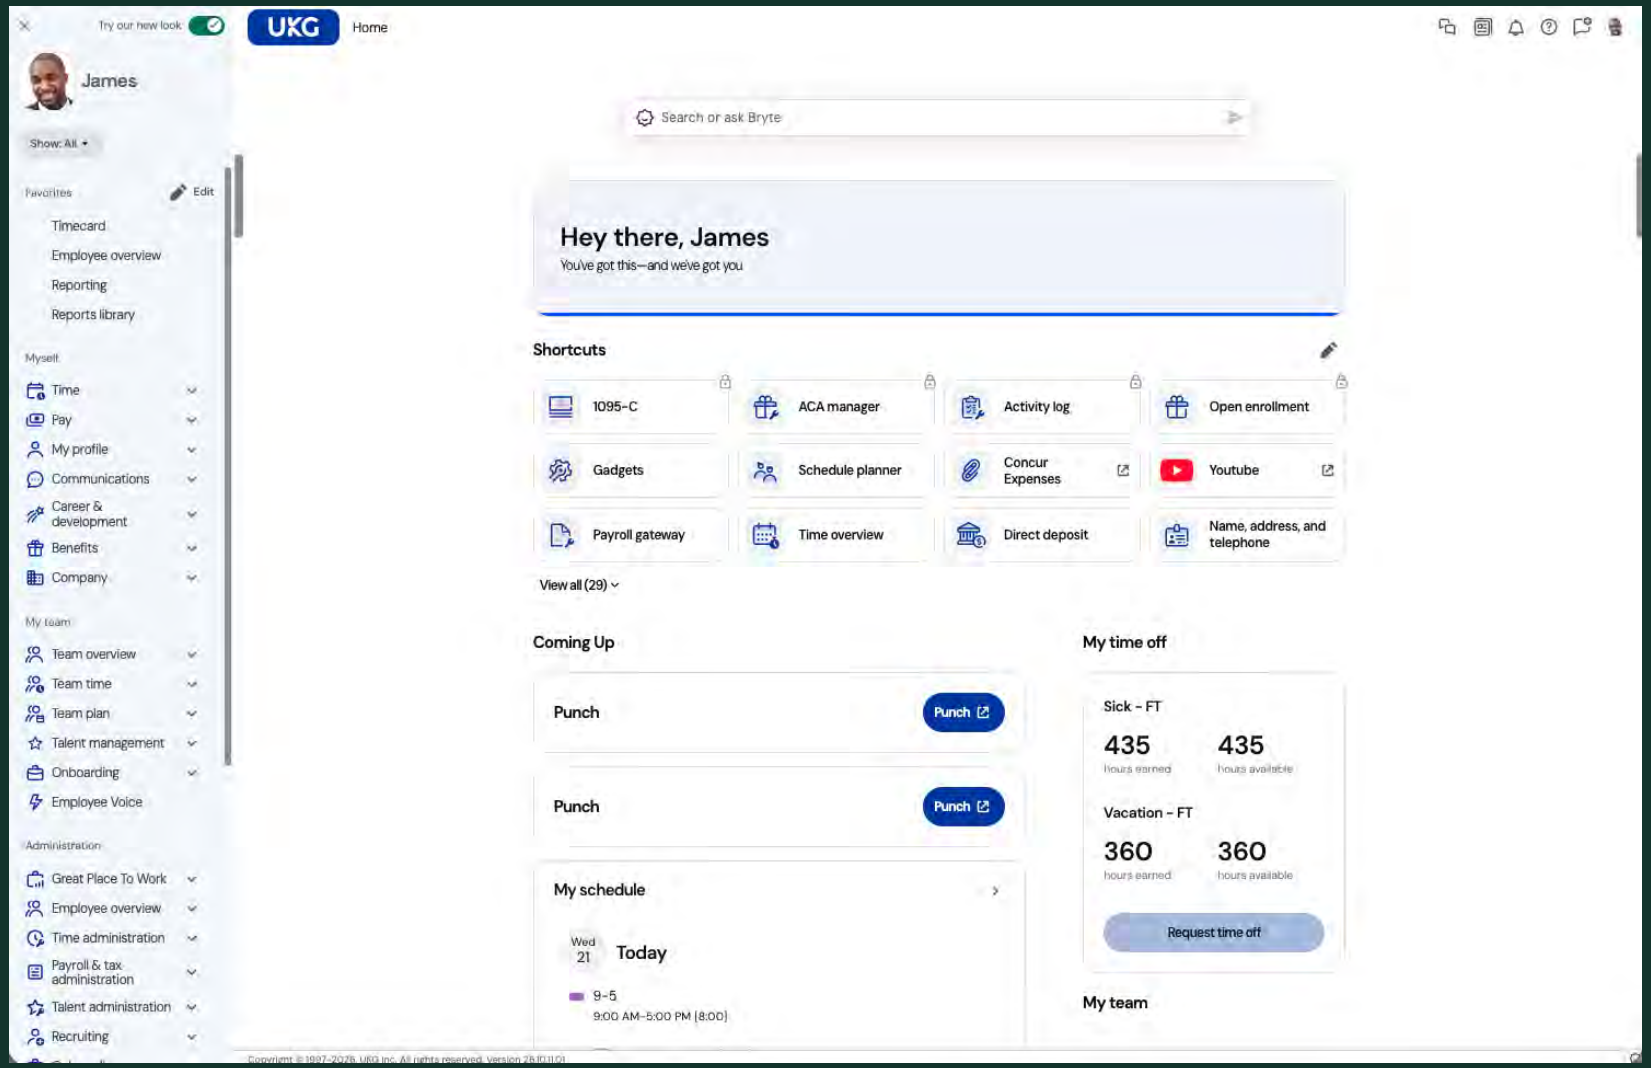

Starting now gives your teams time to adjust before the optional toggle is removed.

Build Readiness

Use UKG's Adoption Guide, User Adoption Toolkit, FAQs, Navigation Path Index, demos, guides, and webinars to build your rollout plan.

Customer Feedback

We're excited about the new UKG Pro suite experience. It's intuitive, easy to use, and designed to help our teams work more efficiently.

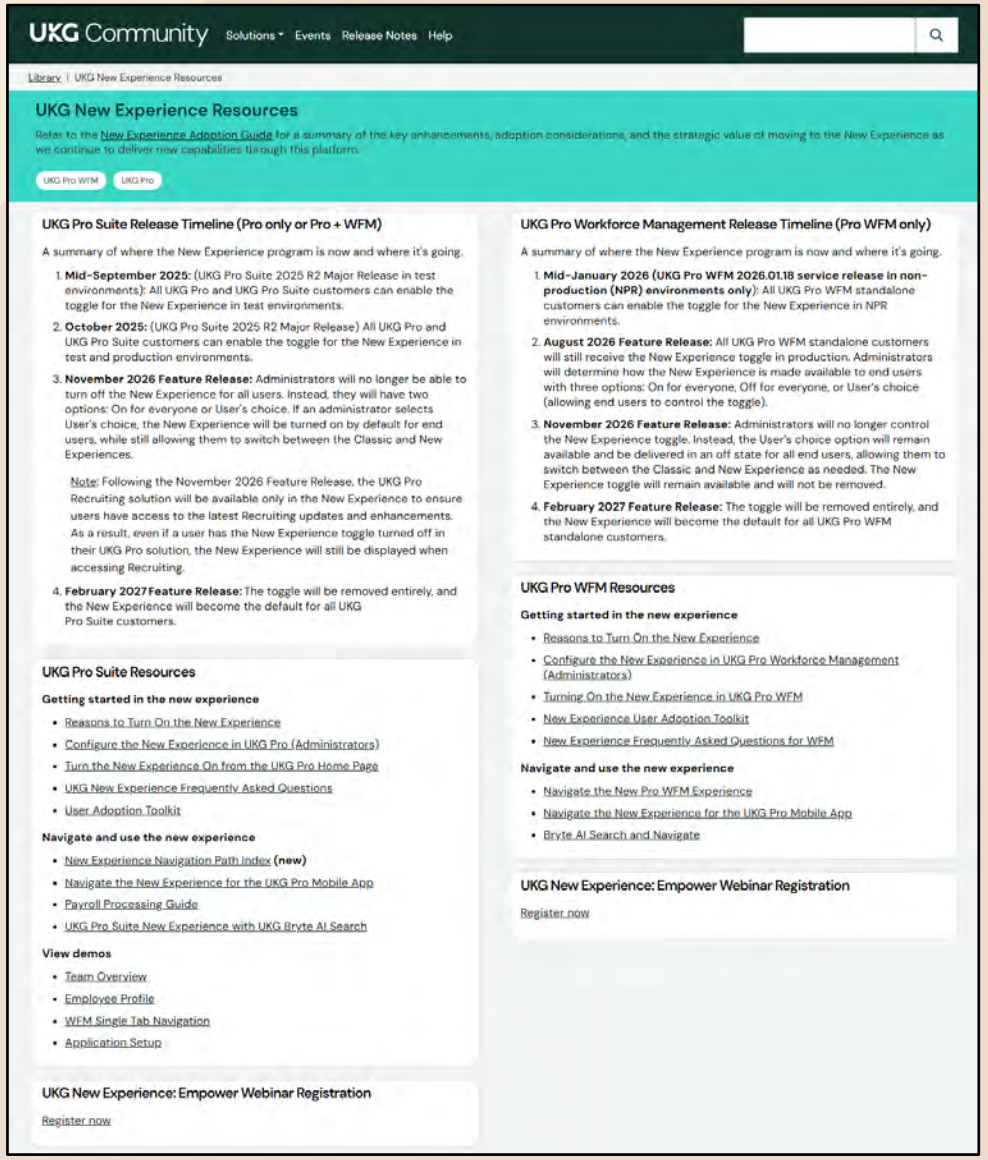

Having all reporting capabilities centralized in one place has greatly improved efficiency, simplified navigation, and enhanced the overall user experience. UKG Bryte AI has also been invaluable in helping us quickly find information across the suite, making the experience even more intuitive and empowering for our teams.
